Martin Schmidt (Trier University)

Short Biography

Professor of Nonlinear Optimization at Trier University, Germany

Research interests: bilevel optimization, optimization problems defined on graphs, optimization under uncertainty, equilibrium models, energy applications

Over 125 research papers

Editorial board member of Journal of Optimization Theory and Applications, Optimization Letters, OR Spectrum, EURO Journal on Computational Optimization; technical editor of Mathematical Programming Computation

Several best paper awards in Optimization Letters, EURO Journal on Computation Optimization, Mathematical Methods of Operations Research, or Optimization and Engineering

Martin Schmidt

Trier University
